### COMPACT METAL PHOTOELECTRIC SENSORS

- Sturdy metal housing in a compact 41x49x15 mm format
- Complete range of universal, application and laser optic functions
- Trimmer or push-button setting with EASYtouch™ function
- NPN and PNP versions standard M12 rotatable connector

# **S90 SERIES**

The **\$90** series, in a compact 41x49x15 mm metal housing, offers all the application and universal optic functions also with safety class 1 laser emission.

The series includes polarised retroreflex models with coaxial optics for the detection of reflective and transparent objects, background and foreground suppression versions, contrast sensor with white light emission for colour mark detection, ultraviolet sensor for luminescent object detection. Basic models are available with class 1 laser emission for high-resolution detection.

The **S90** models with universal proximity, retroreflex and through beam optic functions have trimmer sensitivity adjustment. More sophisticated models are microprocessor controlled and offer the patent-covered  $EASYtouch^{TM}$  setting procedure for rapid and precise automatic setting of the switching threshold, with remote control, keyboard lock and output delay activation functions.

NPN or PNP versions are available with standard M12 connector that can be rotated in 4 different positions.

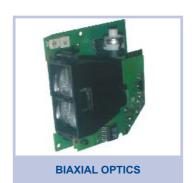

# **S90 COMPACT METAL SENSORS**

The polarised retroreflex model and the version for transparent object detection are available also with coaxial optics guaranteeing a more accurate axis detection as well as the elimination of the blank zone near to the sensor.

The coaxial optics is also present in the contrast sensor with white light LED emission and in the luminescence sensor with ultraviolet light LED emission, improving the precision and depth

The biaxial optics which is present in the background suppression models, including laser versions, allows the triangulation for a precise detection.

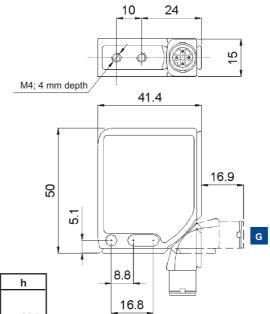

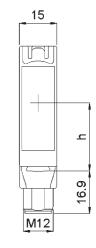

### **ACCESSORIES**

For dedicated accessories refer to the ACCESSORIES section of this catalogue.

Refer also to Connectors (A.03) and Fixing Brackets (A.04) of the General Catalogue.

### **DIMENSIONS**

### **INDICATORS AND SETTINGS**

\* Teach-in push-button for setting. EASYtouch™ provides two setting modes: standard or fine. Please refer to instructions manual for operating details.

- A STABILITY LED
- Output status LED
- POWER ON LED
- READY/ERROR LED
- Trimmer
- SET push-button \*
- M12 connector output, orientable in 4 positions

### **TECHNICAL NOTES**

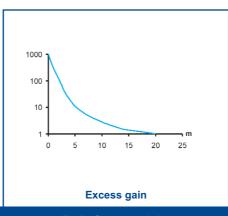

- <sup>1</sup> Limit values
- $^2$  Average life of 100.000 h with  $T_{\rm A}$  = +25 °C Average life of 50.000 in ML-B01, C01, F01, M vers.
- <sup>3</sup> 270° single-turn trimmer
- <sup>4</sup> Connector with 4 position rotation
- A reverse polarity protection
   B overload and short-circuit protection
- 6 Internal lenses in polycarbonate Internal lenses in glass in B51, T51, U, W vers. Internal lenses in glass and PC in ML- B01, C01, F01, M vers.
